

AWS

User Group Ljubljana

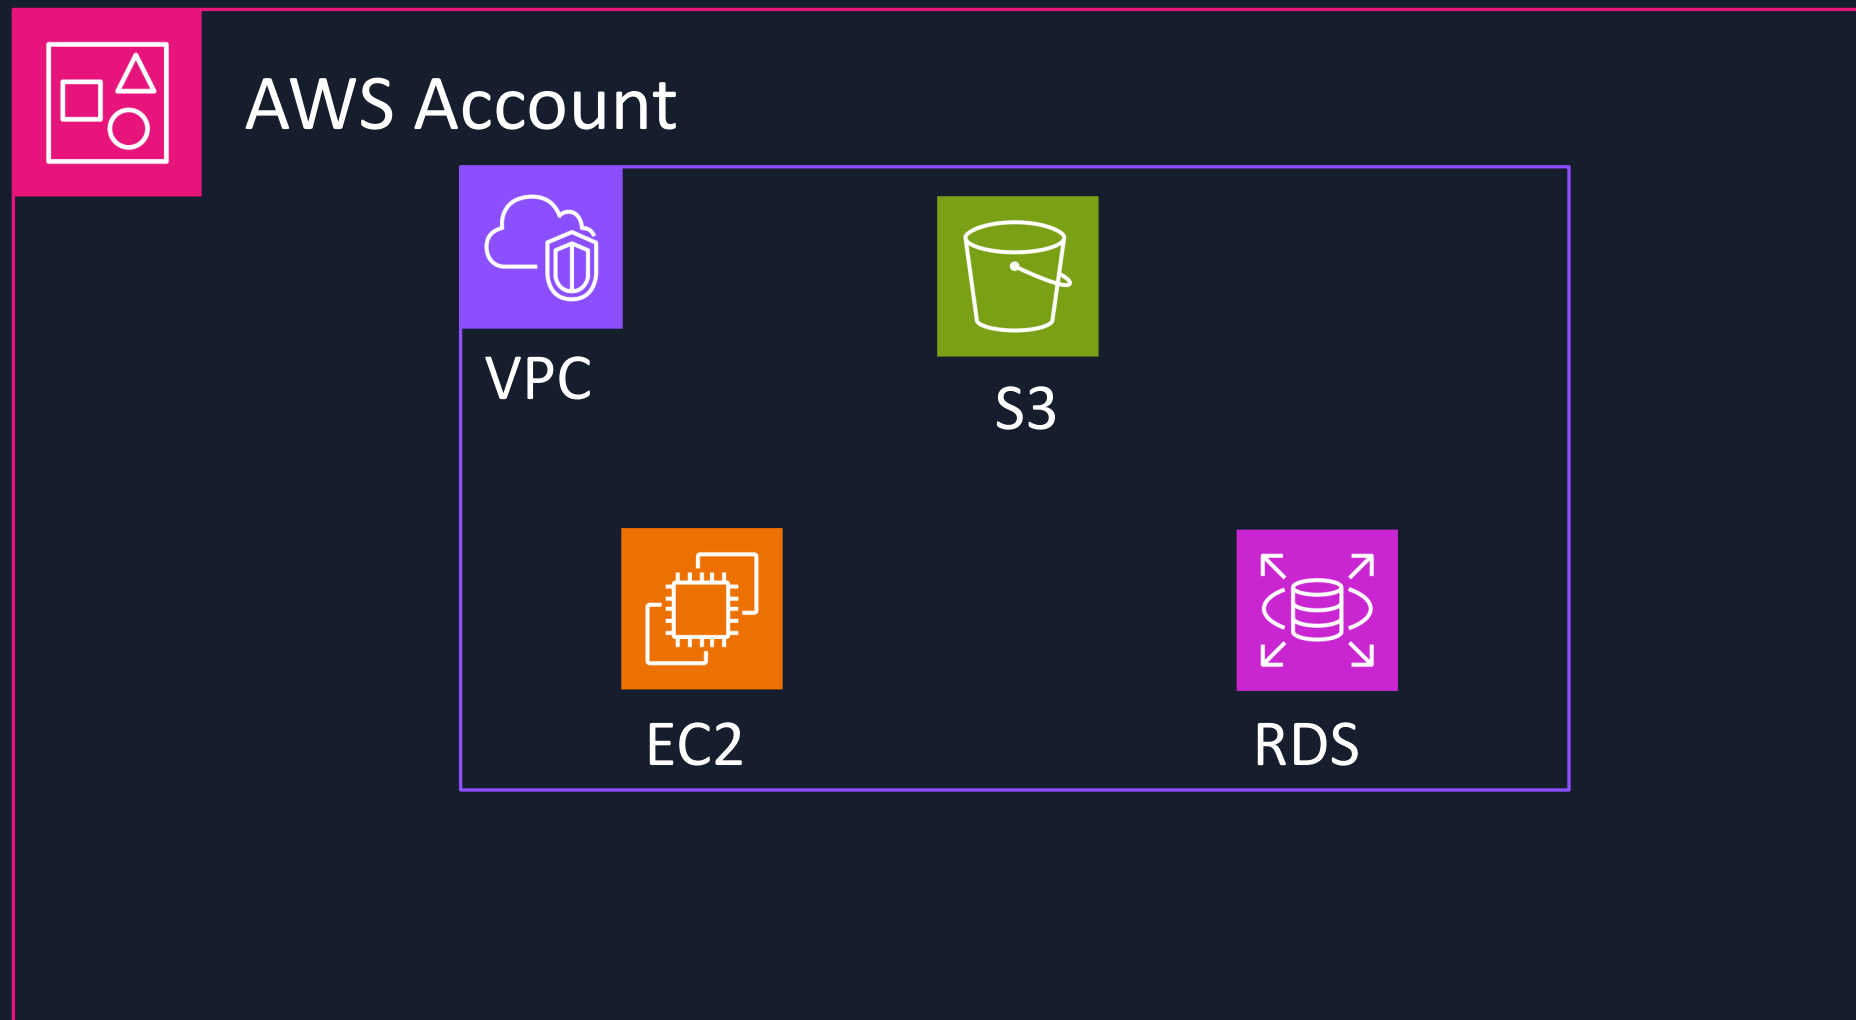

IAM Identity Center with AWS Organizations

Urban Jurca

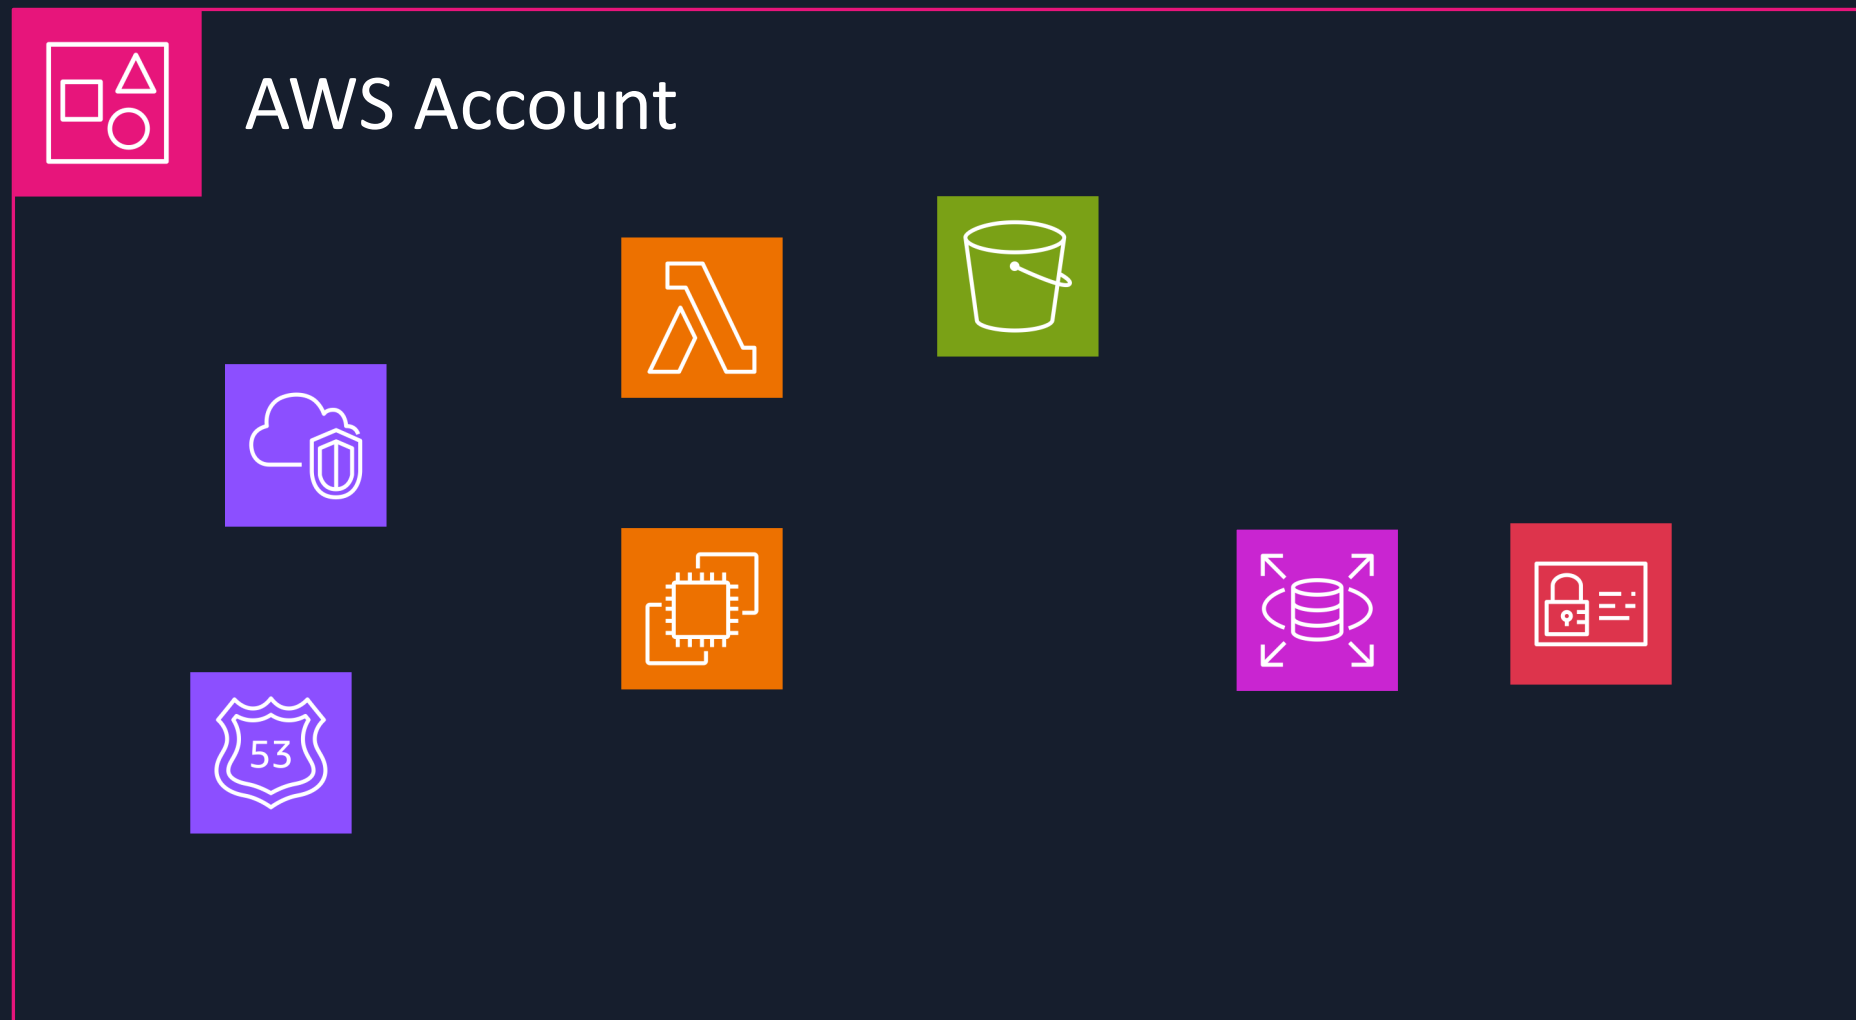

It all usually starts with one account...

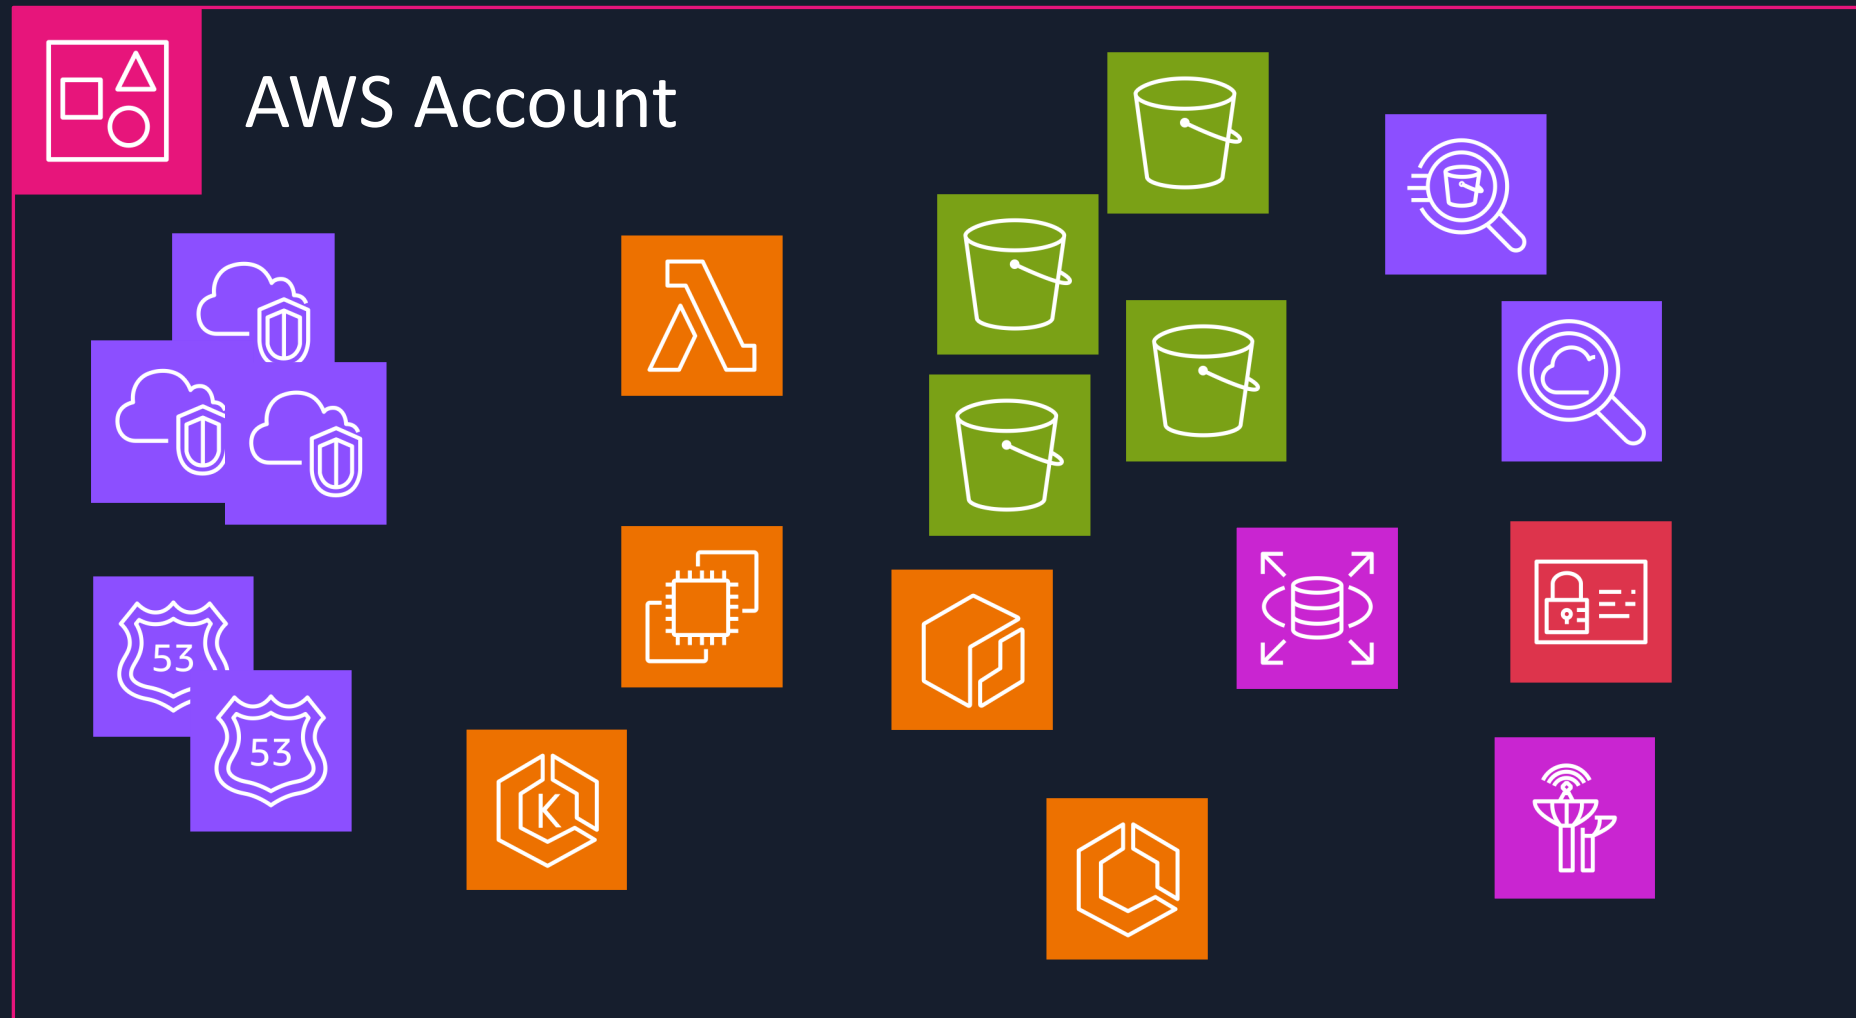

That goes horribly wrong at some point...

A few
admins

That goes horribly wrong at some point...

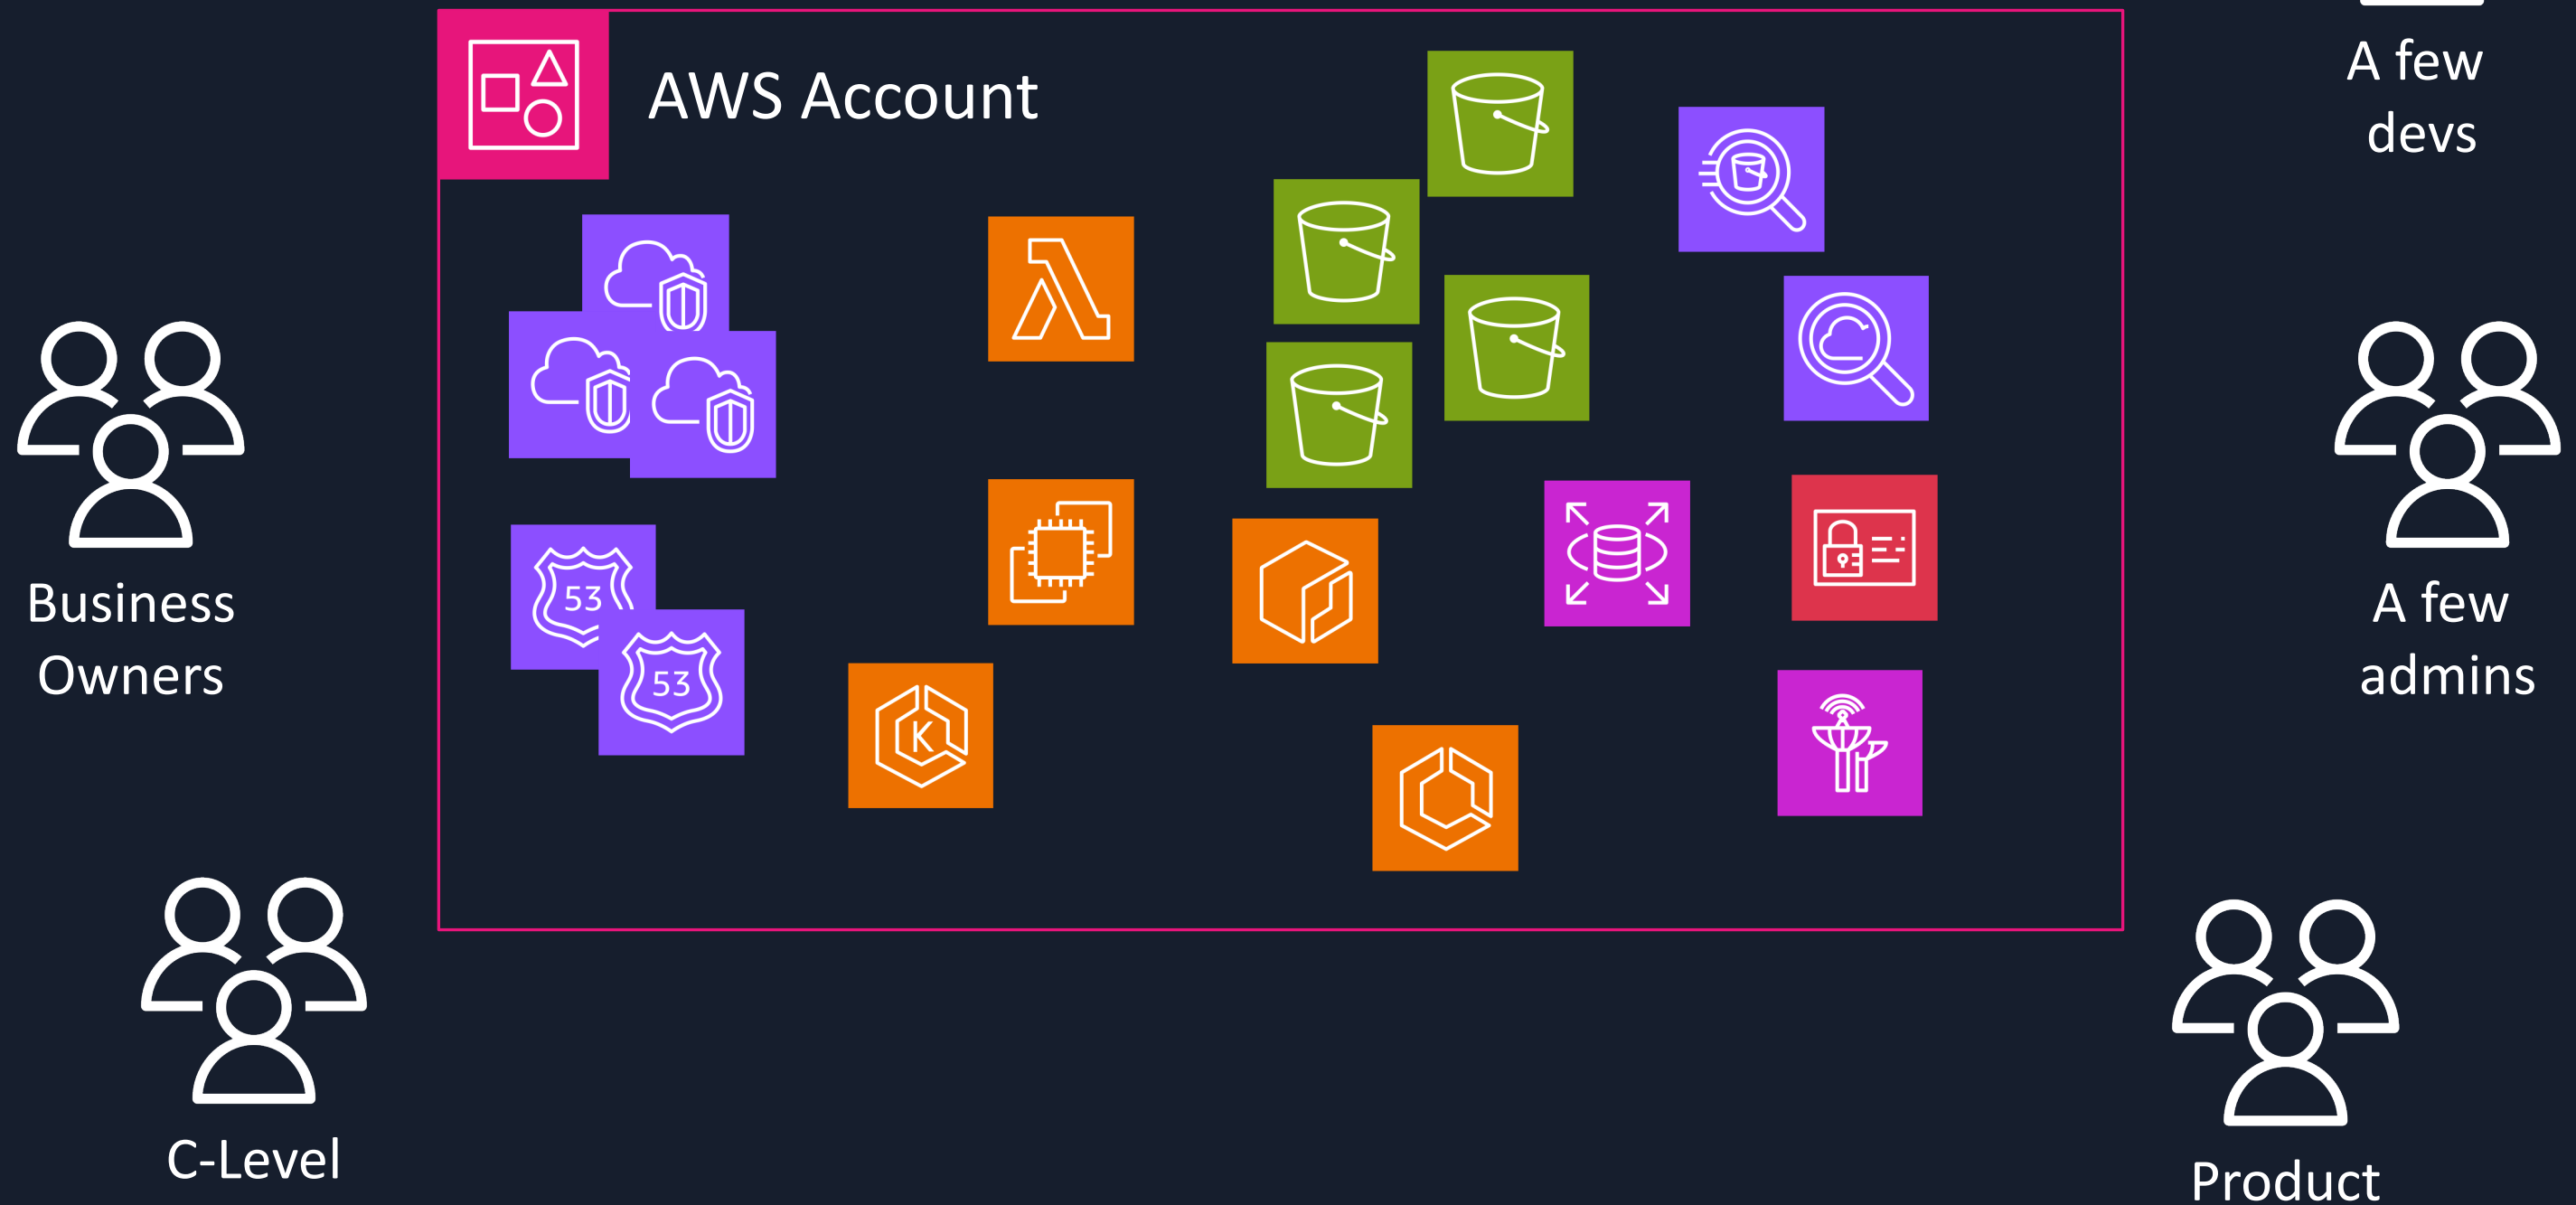

A few
devs

A few
admins

That goes horribly wrong at some point...

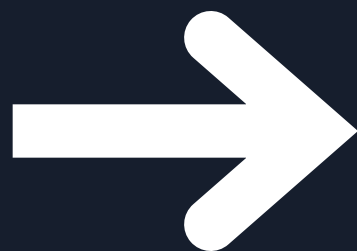

To which everyone gets the bright idea of...

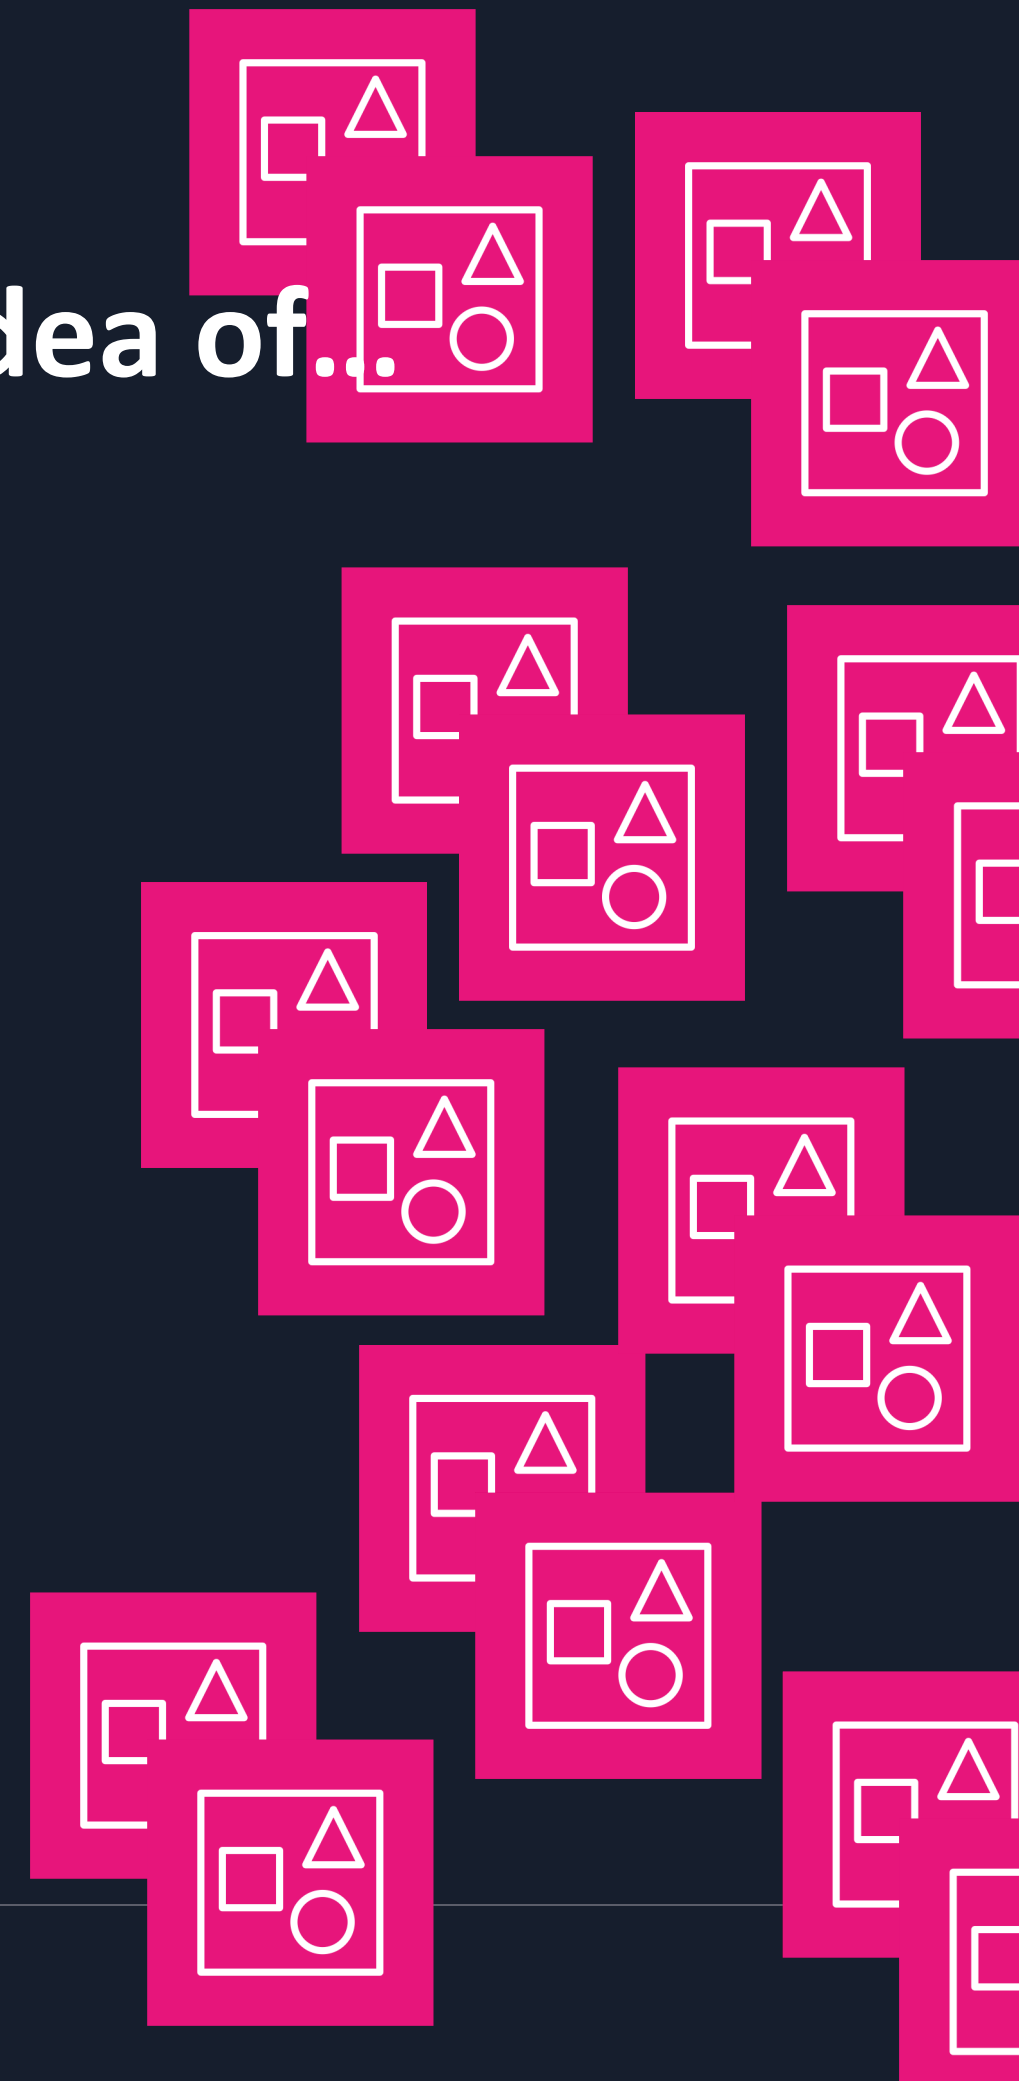

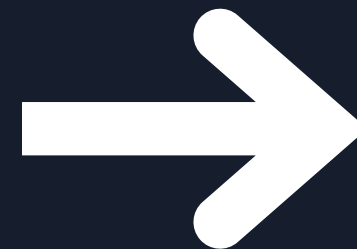

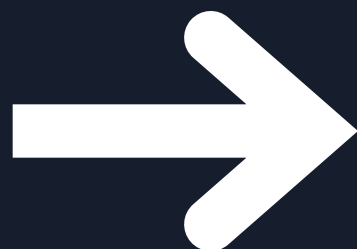

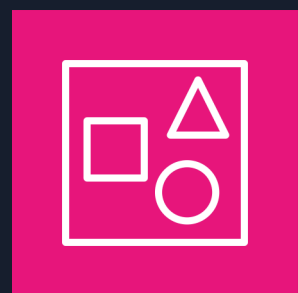

To which everyone gets the bright idea of...

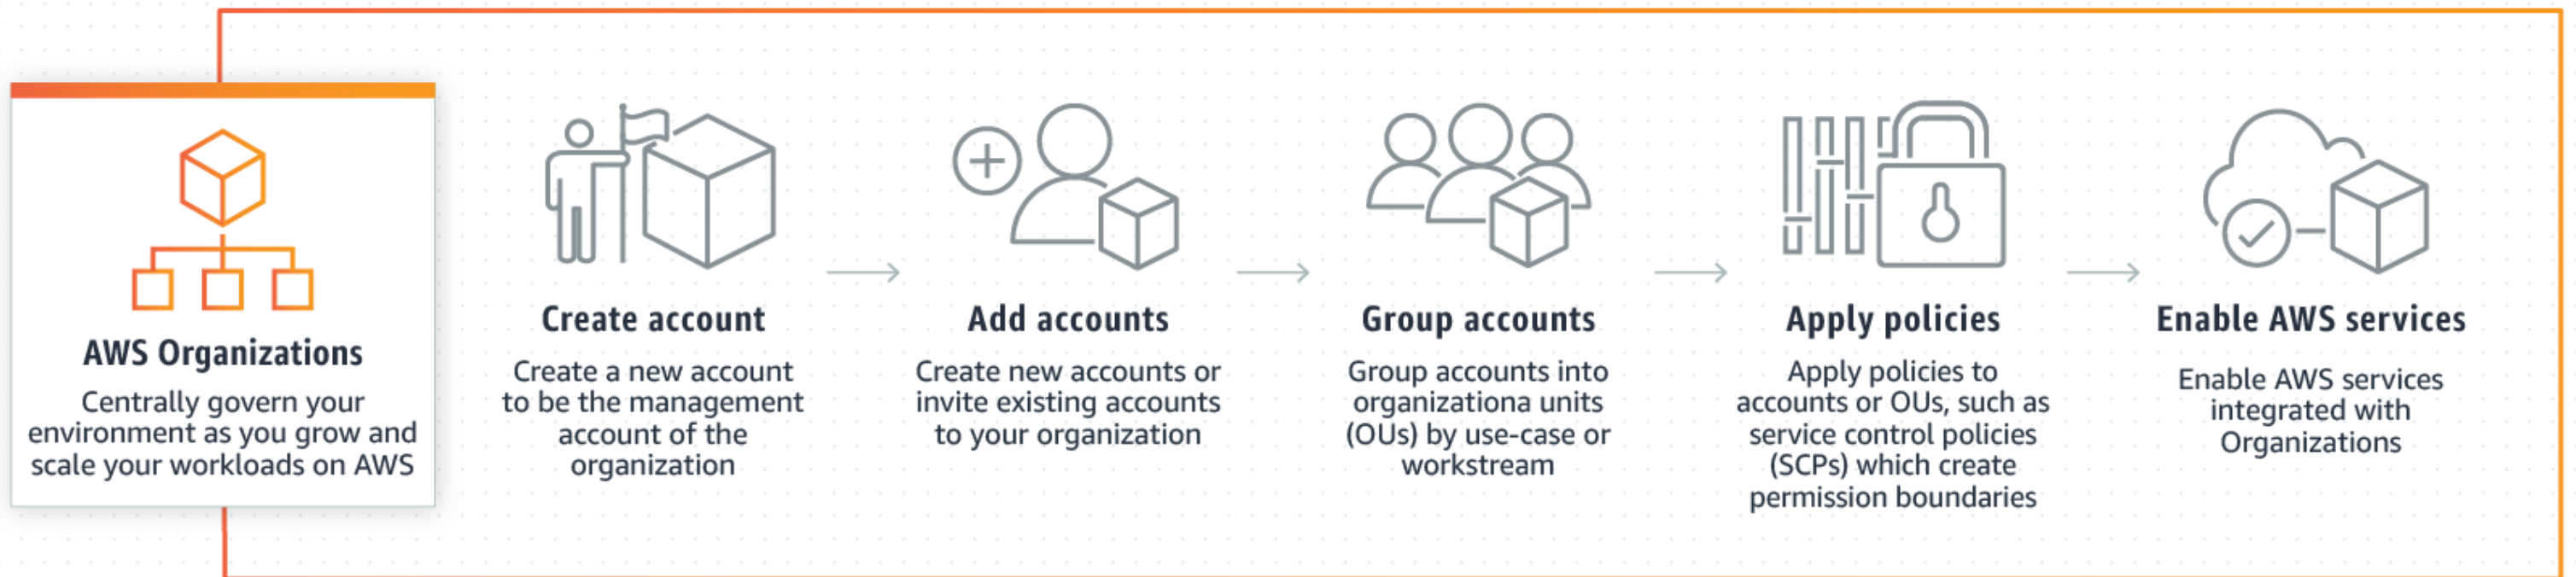

To which everyone gets the bright idea of..

Take center stage: AWS Organisations

Some of the key features of AWS Orgs

- **Consolidated billing**
- Account grouping
- Account security & monitoring
- Control access and permissions
- Resource sharing
- Centralized auditing
- Account templating
